

Run Your Entire Business on One Scalable, Intelligent Platform

Transform the Way Your Business Operates

SAP Business One is a complete, affordable ERP designed for small and mid-sized businesses across manufacturing, trading, services, engineering, retail, and distribution. It connects people, processes, and data – giving you end-to-end visibility and control over your entire business.

Whether you are expanding to new locations, launching new product lines, or scaling teams, SAP Business One gives you the foundation to grow without chaos.

A Single System for All Your Business Needs

Financial Management

- Automated AR/AP, recurring postings, and reconciliations
- Multi-branch and multi-currency accounting
- GST-ready tax engine, audit trails & financial transparency
- Real-time P&L, cash-flow forecasting, budgeting

Inventory & Warehouse Management

- Batch/serial tracking, GRPO, transfers, pick/pack
- Minimum stock alerts, cycle counting & reorder planning
- Multi-warehouse, multi-location inventory visibility

Production & MRP

- BOMs (simple, production, disassembly)
- Routing, machine/work-center planning
- WIP tracking, material planning, and cost rollups
- Production scheduling and resource optimization

Procurement & Supplier Management

- Automated PR-PO-GRN-AP cycle
- Vendor performance scoring
- Landed cost calculation and purchase analytics

Sales, CRM & Customer Service

- Lead-to-cash automation
- Quotations, orders, delivery, invoicing
- Service contracts, AMC, warranties & customer support

Project & Job Costing

- Budgeting, timesheets, cost tracking
- Integrated billing & profitability analysis

Powerful Business Benefits

Complete Visibility Across Your Business:

Eliminate spreadsheets and get a single version of truth with real-time dashboards and KPIs.

Faster Decision-Making:

Instant access to financials, stock, sales, production, and project data enables smarter decisions.

Seamless Operations from Day 1:

Standardized workflows reduce manual work and errors across departments.

Boost Productivity & Customer Experience:

Unified CRM, service, and operations help teams deliver faster, better service.

Scales as You Grow:

Add users, modules, branches, or integrations without system instability.

Industry-Ready for Every Business
